

## Landscape Architecture

At EEA, we work as a team, so we can ensure careful thought and discussion will go into each step of the process. Our landscape architecture and land planning services not only enhance site aesthetics, but also provide functionality, value and cohesiveness with natural surroundings and the environment.

EEA's landscape architecture and land planning services are led by Steven Gregory, PLA, ASLA. Steve has more than 25 years of experience in the City of Chicago, State of Illinois and throughout the Midwest.

### Services

Our experience includes many multi-disciplinary projects, including education facilities, healthcare complexes, streetscapes and corporate offices. EEA's services include:

*Detail Landscape Design*

*Site Planning/Land Planning*

*Park Planning & Design*

*Landscape Planning*
