

# CIVIL ENGINEERING INTERN

We'd rather jump to getting to know you, but we should probably introduce ourselves...

We are civil site design engineers, traffic and transportation engineers, and landscape architects serving the Midwest design and construction industry. We work out of three main offices in Grayslake, Illinois; Chicago, Illinois; and Milwaukee, Wisconsin; with satellite offices in Mokena, Illinois, and Charlestown, Indiana. We assist clients in determining potential site challenges and benefits to ensure project success from the start.

## WE'RE LOOKING FOR AN INTERN TO JOIN US IN CHICAGO, GRAYSLAKE, OR MILWAUKEE.

### A SNAPSHOT OF YOUR DAY:

- Begin developing skills in software such as AutoCAD, Civil3D
- Share ideas with fellow team members on how to better implement AutoCAD/Civil3D software into designs
- Assist with the preparation of contract drawings
- Prepare basic calculations
- Visit project sites to observe what really goes on during construction
- Organize and file project materials and references
- Assist with ad hoc projects as assigned by managers
- All other duties as assigned

### YOU WILL BE SUCCESSFUL IN THIS ROLE IF:

- You're a small picture thinker. Digging into details, carrying out calculations, problem-solving through analysis, and foreseeing problems are your strengths
- You want to learn more about how civil engineering greatly impacts the success of building projects
- You are seeking regular professional development training to grow your "real world" experience
- You have a car or access to public transportation

### YOU WILL THRIVE HERE IF:

- You are successful in a team setting
- You are motivated and have professional goals
- You like raising your hand and volunteer to take on tasks before you are asked

DOES THIS SOUND LIKE **YOU**?  
LET US KNOW IF YOU'RE READY FOR **A CHALLENGE**.
